Year End Figures

Two sheets are attached detailing our income and outgoings for 2024.

The first sheet with the actual totals shows a deficit for the year of £7,844.29.

However a decision was made by the Finance Committee to use legacy monies in our Diocesan Deposit Account to fund various one-off projects during the year and the cost of these projects totalled £26,260.82.

Below is a summary of the major projects carried out in 2024.

Replacement of Sanctuary lighting	Installation of defibrillator
Second new heat pump	Car park lining
Outside walls render treatment	Roof treatment
Car park signage	Church kneelers

The second attached sheet shows that if these one-off costs are excluded then the overall balance for the year would be a surplus of £18,416.53.

The Finance Committee would like to offer our heartfelt thanks for your generosity throughout 2024.

TREASURER'S REPORT TO PARISH
Accounting Year 1 January to 31 December 2024

However it should be noted that our total offertory income of £45,243.73 is insufficient to cover our total outgoings (excluding one-off costs) of £64,046.16 and we continue to rely on other income such as interest from the Diocese on our Deposit Account, Gift Aid tax rebates and other donations to maintain a working surplus.
